

EMPOWERING FINANCIAL CONTROL

For Construction Companies

Streamline your financial processes, enhance visibility, and ensure your projects stay on budget with cloud-based construction financial management and accounting software. ControlQore empowers you with real-time oversight and peace of mind over the financial management of all your construction projects.

THE PROBLEM

THE SOLUTION

Financial Management For Construction is Messy.

Construction financial management can feel like a maze of disconnected systems, scattered approvals, and stray spreadsheets, slowing you down at every turn. These inefficiencies make it harder to understand and control costs, get paid on time, and keep projects profitable and efficient.

Consolidate & Clean It Up With ControlQore.

Centralize your financial tools in a single platform built for the demands of construction financial management. With automated bill approvals, intuitive expense tracking, and simple lien waiver workflows, you'll gain real-time project financial visibility and next level control.

KEY FEATURES & BENEFITS

ALL-IN-ONE PLATFORM

Forget jumping between systems. ControlQore puts your entire financial ecosystem under one roof—payables, receivables, expenses, banking, you name it.

PROJECT-SPECIFIC ACCOUNTING

Track your costs, committed expenses, and profitability for each project in real-time. No more guessing. No more waiting until the project is over to see if you made money.

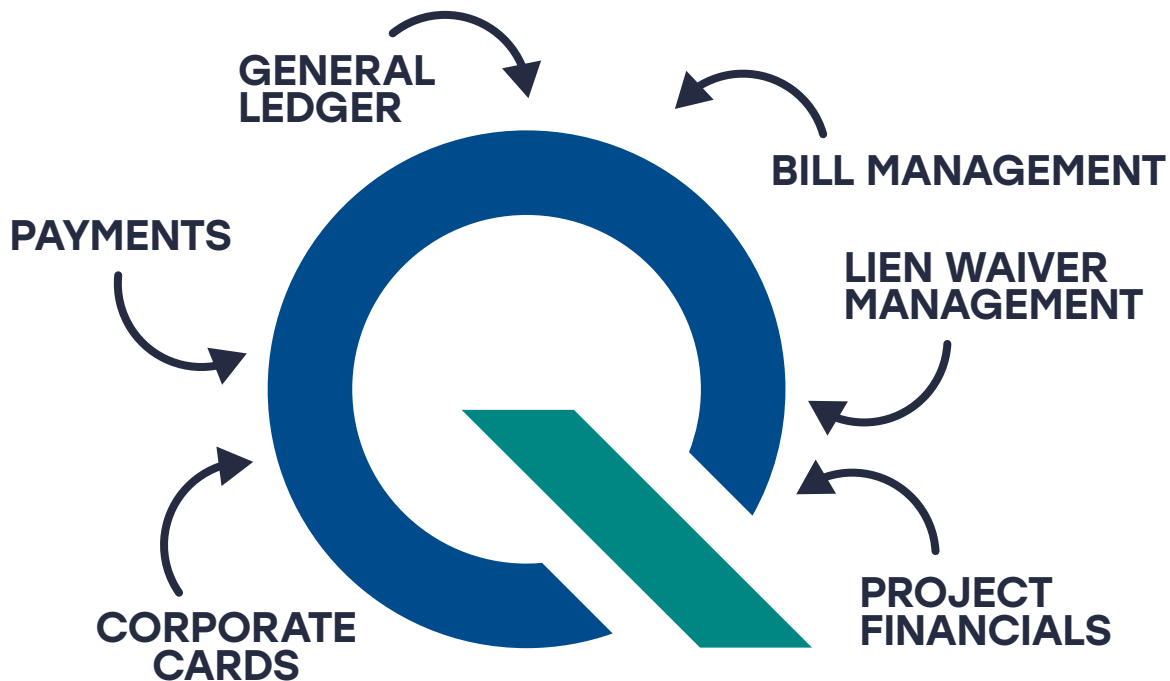

AUTOMATED WORKFLOWS

Let ControlQore handle the grunt work with automated processes for invoicing, billing, and expense tracking. Manual entry? That's so yesterday.

REAL-TIME INSIGHTS

Know your financial status at any moment with up-to-the-second data on every transaction. Because Control Freaks don't like waiting or feeling like they're in the dark.

Why Controlqore?

When your GC's success relies on efficient financial operations and the teams who manage them, you need dependable, comprehensive support every step of the way. We get it—that's why we built a financial platform that works as hard as you do. ControlQore was built specifically for construction pros who need to track every penny across multiple projects without losing sight of the big picture.

Simplify Bill Management, ENHANCE FINANCIAL CONTROL

Our Bill Management solution removes the stress of accounts payable by simplifying the entire bill processing life cycle, giving you full visibility and reducing errors to keep your projects on track. Accelerate bill processing by automating every stage –with bills captured right from your email and organized in one place, you’ll avoid missing invoices, speed up approvals, and keep your cash flow healthy.

THE PROBLEM

THE SOLUTION

Stop Chasing Receipts. Start Managing Projects.

Manual processes and scattered receipts make bill management a challenge for construction teams. Disconnected systems make tracking expenses across job sites time-consuming and error-prone, leading to budget headaches and cash flow bottlenecks that delay projects and disrupt financial control.

Turn Bill Chaos into Clear Control.

ControlQore's Bill Management takes the hassle out of managing invoices. With automatic email capture and streamlined approval workflows; every bill is accurately processed and never overlooked. This means no more lost bills, no more manual data entry or approval bottlenecks. Streamline all bills in one platform for faster insights and seamless financial control.

KEY FEATURES & BENEFITS

AUTOMATIC INVOICE CAPTURE

Automatically captures and organizes invoices as they arrive in your email, ensuring no bill slips through the cracks.

REAL-TIME TRACKING

Complete visibility into the status of every invoice, from capture to payment, across all projects.

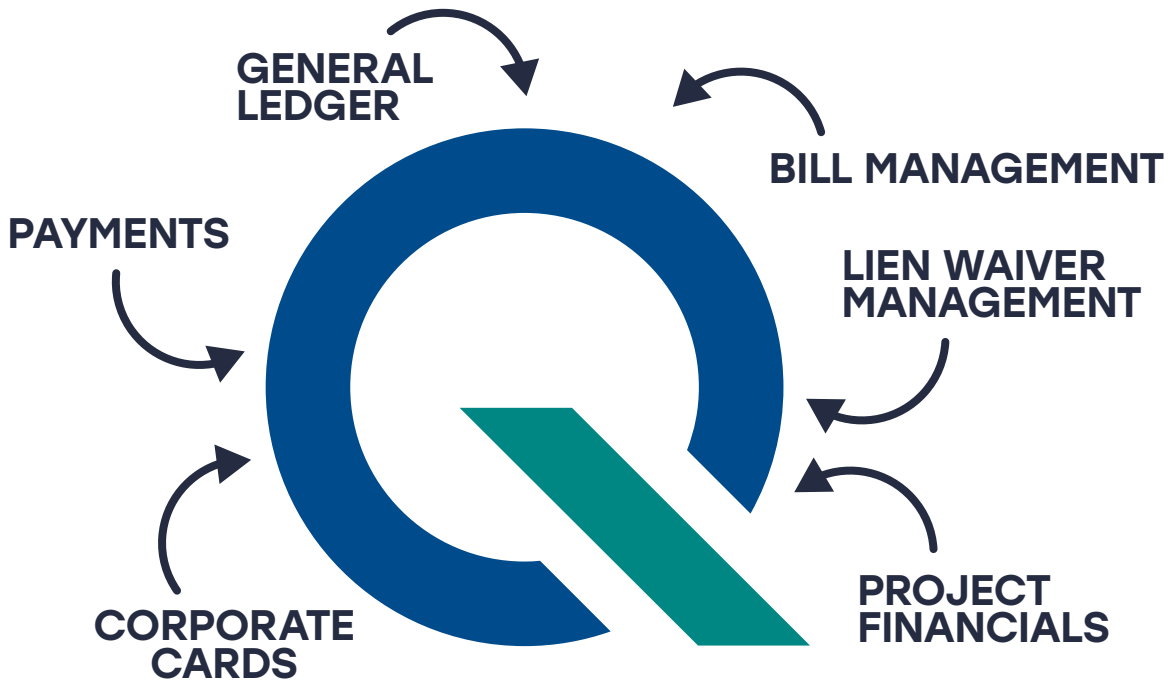

STREAMLINED CODING & APPROVALS

Let ControlQore handle the grunt work with automated processes for invoicing, billing, and expense tracking. Manual entry? That's so yesterday.

ENHANCED CASH FLOW MANAGEMENT

Faster approvals keep cash flowing smoothly, preventing delays and supporting project timelines.

Why Controlqore?

When your GC's success relies on efficient financial operations and the teams who manage them, you need dependable, comprehensive support every step of the way. We get it—that's why we built a financial platform that works as hard as you do. ControlQore was built specifically for construction pros who need to track every penny across multiple projects without losing sight of the big picture.

CONTROL PROJECT SPENDING

With Confidence

Simplify spending with ControlQore's Expense Management solution, featuring easy-to-use corporate cards. Bring visibility, real-time control, and efficiency to construction project spending. Designed to keep your projects on budget, your finance team happy, and your bottomline updating in real-time.

THE PROBLEM

THE SOLUTION

Expense Management Stuck in the Stone Age.

Construction companies face constant challenges managing project expenses with traditional methods—spreadsheet tracking, scattered approvals, and unmonitored spending. These issues lead to budget overruns, delayed reporting, and increased financial stress.

Expense Management Built For Control Freaks, Not Cavemen.

Keep every dollar on target and accounted for with ControlQore's expense management and corporate card solution. Instantly track, categorize, and control expenses across all your projects with custom corporate cards—built by construction pros, for construction pros.

KEY FEATURES & BENEFITS

AUTOMATED EXPENSE REPORTING

Stop chasing receipts! Employees capture and code expenses directly from their phones, saving time and improving accuracy.

PROJECT-LEVEL TRACKING AND APPROVAL WORKFLOWS

Easily track and approve expenses specific to each project, keeping every dollar accountable.

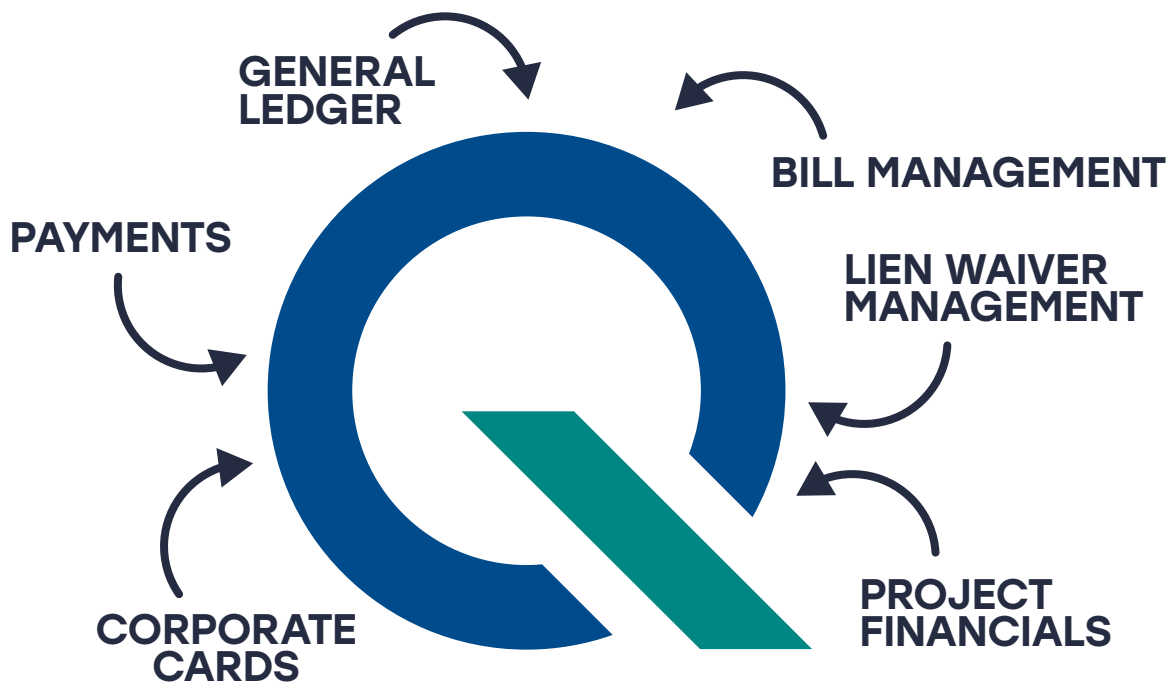

CUSTOM CORPORATE CARDS WITH LIMITS

Issue virtual or physical cards for any team member, set spending limits, and align purchases with project budgets.

ALL-IN-ONE FINANCIAL PLATFORM

Say goodbye to juggling multiple tools. Unite expenses, payables, receivables, corporate cards, and more in one seamless platform. So you can focus on building, not bookkeeping.

Why Controlqore?

When your GC's success relies on efficient financial operations and the teams who manage them, you need dependable, comprehensive support every step of the way. We get it—that's why we built a financial platform that works as hard as you do. ControlQore was built specifically for construction pros who need to track every penny across multiple projects without losing sight of the big picture.
