

Vendor Management and Labor Compliance Software for Prime Contractors and Civil Engineering Firms

B2Gnow's powerful cloud-based software helps prime contractors and civil engineering firms ensure compliance, win more bids, and maximize and track all types of small and disadvantaged business (DBE, MBE, WBE, SBE) utilization.

Certified Vendor Management & Growth

- Real-time certification data - B2Gnow is the source solution for 130+ certification directories
- Search for, and outreach to certified vendors by cert. types, NAICS/NIGP codes, location, and more
- Online portal streamlines vendor registration and prequalification

Vendor Sourcing, GFE & More

- Source certified small, local and diverse businesses - over 500,000 certified vendors in the database
- Built-in outreach capabilities with reporting to track results (GFE)
- Virtually track and streamline data collection for CUF reviews, site visits, insurance certificates, etc.

Complete Spend Tracking & Analytics

- Match vendor expenditure data against all recognized certification directories
- Track capital projects and construction spend by business type certifications - up to 10 tiers
- Easily report and visualize your overall, categorized spend data

Prevailing Wage Labor Compliance

- Simplifies payroll tracking and wage updates for compliance with the Davis-Bacon Act, state prevailing wage laws, and local ordinances
- Provides real-time monitoring to maintain regulatory alignment
- Enhances audit readiness while improving operational efficiency

B2Gnow EXCLUSIVE

Subcontractor Payment Tracking Data Sync

B2Gnow enables organizations to manage and validate subcontractor payment data and easily share it with project owners (with agency permission). Organizations can link contract records across systems when both are B2Gnow clients, allowing subcontractor payment info and confirmation details to be collected in one system and seamlessly transferred to the contract owner's system, increasing visibility and efficiency while significantly reducing the risk of error.

B2Gnow Solution

A Quick Overview

B2Gnow's cloud-based and modular enterprise software platform is a SaaS solution used by more than 400 public agencies, utilities, educational institutions, general contractors, and civil engineering firms. B2Gnow addresses all aspects of vendor management, contract compliance, procurement, certifications, prevailing wage labor compliance and grant management.

Twenty-five modules provide a cost-effective and flexible solution, focusing on vendor self-responsibility to manage and report their data, substantially reducing administrative effort.

The B2Gnow solution offers connections to 200+ certified directories, most with real-time status and details. Search for certified vendors by certification types, NAICS/NIGP codes, location, and more.

Utilized by more than 400 organizations, including:
