PROJECT CLARITY & CONTROL

Budget Management

Empower PMs to spot cost overruns early and make informed adjustments, ensuring projects stay profitable.

Labor Insights

Identify inefficiencies in labor allocation to maximize productivity and reduce wasted resources.

Proactive Change Management

Address change orders quickly to prevent unexpected expenses from eating into margins.

Billing Visibility

Help PMs ensure timely invoicing and payments, improving cash flow and reducing financial bottlenecks.

EXECUTIVE ANALYTICS & PLANNING

Strategic Insights

Provide leaders with the data they need to evaluate project and company performance, enabling smarter, more profitable decisions.

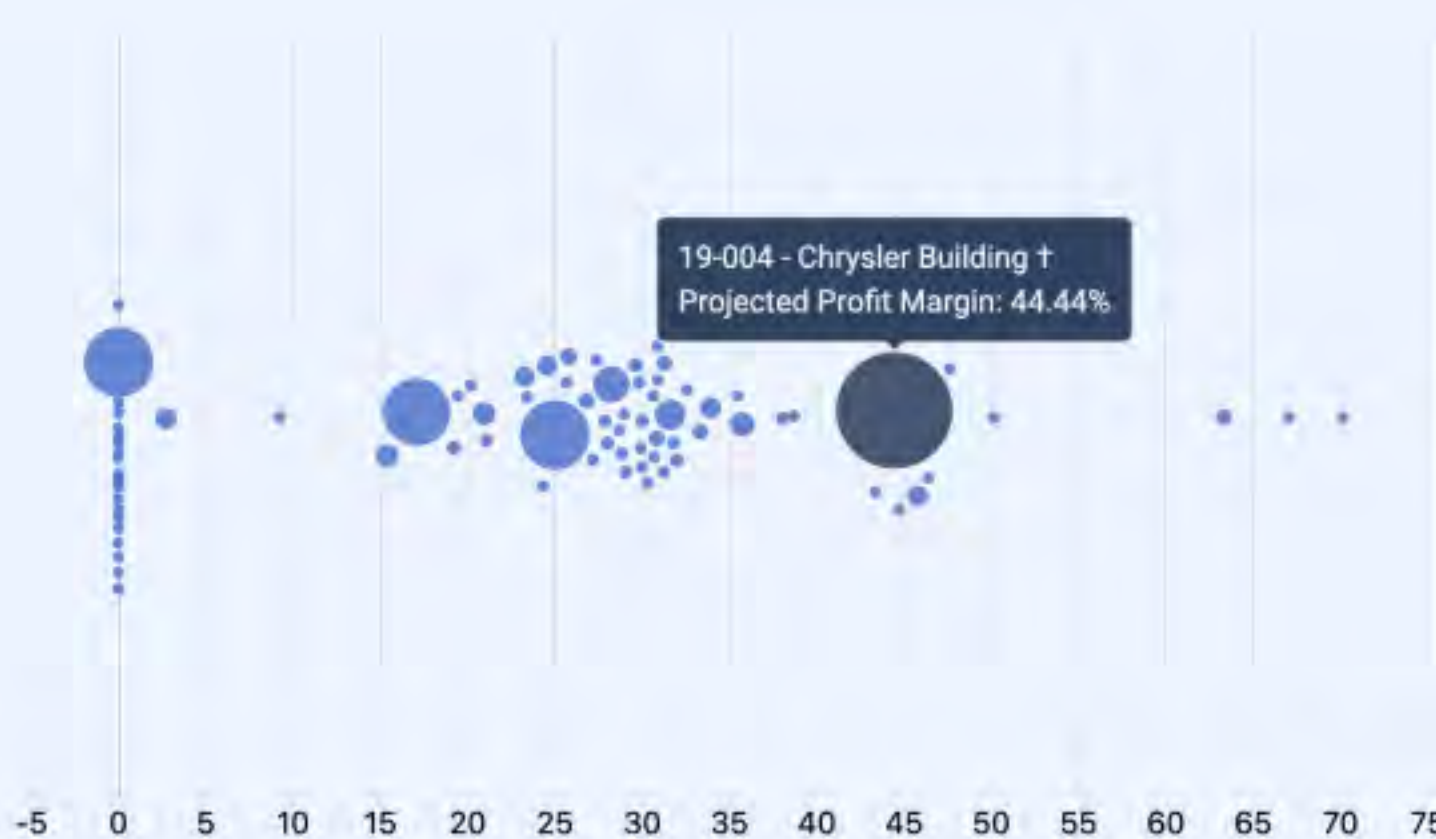

Financial Forecasting

Equip leadership with accurate projections to plan ahead for revenue, cash flow needs, and resource allocation across all projects.

Performance Monitoring

Deliver a clear view of project trends and financial health, allowing leaders to take corrective action before issues escalate.

STREAMLINED COLLABORATION

Effortless Automation

Automatically integrate cost data into WIP reports, saving hours of manual work.

Unified Team Insights

Foster alignment across teams with consistent financial data, helping everyone work toward common goals.

Accelerated Cash Flow

Enable teams to prioritize and resolve delayed invoices, improving liquidity and strengthening financial stability.

ProNovos Features & Contractor Benefits

FEATURE	HOW IT HELPS CONTRACTORS
Integrated Dashboards	Provide real-time views of project and company health to the entire team.
Job Review Tools	Streamline financial reviews of active jobs by centralizing all project data in one place, making it easier to ensure accountability and keep projects on track.
AR Collection Automation	Automate follow-ups to ensure no invoices are missed, improving cash flow.
Cash Flow Forecasting	Predict cash needs and protect profits by staying ahead of financial challenges.
Cost & Revenue Forecasting	Optimize project planning and profitability with detailed cost and backlog projections.
WIP Reporting Automation	Save hours by automating complex reporting processes, eliminating errors, and customizing WIP reports to fit your unique needs.
Field-to-Office Collaboration	Align teams by bridging communication gaps and centralizing data.

"ProNovos improved our financial visibility and cash flow management, even during slow years. Efficiency was achieved in managing over 60 projects."

Wick Zimmerman
CEO, OTL

"We increased accountability for project managers, improved Days Sales Outstanding (DSO), and better AR Aging metrics."

Clint Alessandro
President, Alessandro Electric

"With ProNovos, we shifted from historical P&L reviews to continuous forecasting, enhancing growth and efficiency across ten states."

Avi Reddy
CEO, Envision Construction
